DO YOU ALSO WANT TO BE PART OF THE CHANGE?

JOIN OUR FOUNDATION FOR SUSTAINABLE AND CIRCULAR EQUIPMENT FOR THE ENERGY MARKET

Re-Quip Foundation is a non-profit pioneering initiative to enhance sustainability and transparency whilst fostering collaboration in the industry. The mission of Re-Quip Foundation is to engage industry partners in implementing sustainable and circular ways of design, use and re-use of equipment for the energy market.

The initiators of Re-Quip Foundation are thrilled and dedicated to make the offshore energy industry a better place.

We firmly believe that we - as equipment engineers, builders and end-users - have a unique opportunity to shape a more sustainable future by maximizing the lifecycle of our (offshore) equipment.

Imagine the possibilities and benefits for our industry and our environment if we rethink the use of equipment in innovative ways. We're convinced it's at our fingertips when we combine forces!

“ In the pursuit of innovation, we must remember that sustainability is not just a goal but a responsibility to future generations ”

Remco Löwenthal – Van Oord

UNDER CONSTRUCTION

A BRAND-NEW MARKETPLACE FOR T&I EQUIPMENT FOR THE OFFSHORE WIND INDUSTRY

As a first initiative, our Foundation is engaged in designing the **Re-Quip Foundation Marketplace for Transport & Installation (T&I) Equipment for the Offshore Wind Industry** that is aimed at enhancing equipment re-use via one comprehensive platform.

When online in 2025, the Re-Quip Foundation Marketplace provides a matchmaking platform to connect industry partners who either supply (sell or rent out) or demand (buy or rent) Transportation & Installation (T&I) tools or components for offshore wind farms, both Excess Stock (new) & pre-used components. The scope of the platform comprises:

Complete tools -
including or
excluding IP

Excess Stock
(new) & pre-used
components

Rental of tools &
components

*“ From scrap to
sustainable, re-using
offshore wind equipment
for a greener tomorrow ”*

Lex Biemans – TWD

OBJECTIVES OF THE RE-QUIP FOUNDATION MARKETPLACE

8 VALID REASONS FOR INDUSTRY PARTIES TO BECOME A USER

Tapping into a vast pool of available unused equipment

Reducing the industry's footprint (CO₂/waste)

Ensuring transparency & security of supply

Leading by example

Complying with CSRD legislation

Subscribing to IRBC (IMVO) principles

Adhering to the Green Deal Goals

Establishing a powerful Network of Frontrunners

“A circular system where resources are responsibly documented, managed and reused is vital to advance our industry, to accelerate the energy transition and to fight climate change”

Erwin Coolen - ECHT regie in transitie

Economic benefits

RECYCLING MATERIALS IN THE OFFSHORE INDUSTRY

By integrating recycling into the business models, companies in the offshore equipment industry can not only reduce costs but also contribute to sustainability and environmental conservation. Recycling materials in the offshore industry offers several economic benefits:

Cost Efficiency:

Recycling (or reusing) materials can lower costs compared to the extraction of new raw materials. Steel is expensive.

Value retention:

Existing equipment that is fit for reusing can bring additional economic value to owners compared to leaving it idle.

Operational efficiency:

Lead times for commissioning of re-used equipment can be lower compared to new build.

Reduced Waste Costs:

By recycling materials, the amount of waste that needs to be disposed of or processed can be significantly reduced.

Security of supply:

Reusing existing equipment reduces dependency on supply chain parties, hence the risks on delays in the project schedule.

Innovations:

Recycling materials can lead to the development of new technologies and processes, resulting in innovative products.

Tax reductions, subsidies and loans:

Tax incentives, subsidies and loans are available for companies that engage in sustainable practices. This can provide additional financial benefits.

Enhanced Competitive Positioning:

Companies committed to sustainability and recycling may gain a competitive edge and bring additional value to their Clients.

Improved Brand Reputation:

Companies that actively engage in sustainability can enhance their brand reputation, leading to greater customer loyalty and new business opportunities.

ARE YOU EXCITED TO JOIN OUR GROUP OF
SUSTAINABLE FRONTRUNNERS?

WE INVITE YOU TO BECOME A FOUNDING SUPPORTER NOW

Setting up the Re-Quip Foundation is only possible with full support and commitment from companies throughout the whole supply chain. The more companies join, the stronger we get – and the more initiatives we can boost for a sustainable and responsible transformation within our industry!

Re-Quip Foundation

Rethink Equipment

ARE YOU EXCITED TO JOIN OUR GROUP OF
SUSTAINABLE FRONTRUNNERS?

WE INVITE YOU TO BECOME A FOUNDING SUPPORTER NOW

With a solid group of Re-Quip Foundation initiators, we now call upon our industry peers to help us in advancing our mission and start **developing our marketplace platform**. With your support in our fundraising campaign Re-Quip Foundation can continue to create a greener, more sustainable industry.

ANTICIPATED TIMELINE FOR RE-QUIP FOUNDATION MARKETPLACE PLATFORM

NEXT STEPS:

Commitment and Fundraising

Further funding and platform development

Q4-2024:

Fundraising to start this Foundation

Q1-2025:

Complete Funding to start development of the market place

Q4-2024:

Industry Fundraising campaign

Establish Foundation (legal and administrative)

Q1-2025:

Complete funding to start development of the marketplace

Q2-2025:

Functional Design of platform and developing Roadmap

Q3-2025:

Test phase Marketplace 1.0

4-2025:

Operational phase Marketplace 1.0

CAN WE COUNT YOU IN AS A FOUNDING SUPPORTER? YOUR COMMITMENT AND CONTRIBUTION IS WELCOME!

HOW TO COMMIT

By enlisting as a **Founding Supporter** you subscribe to the Re-Quip Foundation Covenant and commit to supporting our initiative aimed at enhancing sustainable and circular ways of design, use and re-use of equipment for the energy market by:

- Encouraging re-use above single use to sell and buy used equipment and components via the marketplace.
- Using the CO₂ calculation tool to create awareness for “true prices”.
- Providing transparency on used materials.
- Embracing relevant joint industry initiatives to boost sustainable practices.
- Sharing knowledge to make our industry a better place.

HOW TO BENEFIT

By enlisting as a **Founding Supporter** you become part of an exciting sustainable initiative,

driven and embraced by renowned industry players and:

- Your support will be visible with your company logo displayed on our website.
- You will be on top of new Re-Quip Foundation initiatives and enjoy all user benefits when the marketplace is online.
- Your financial contribution paves the way for Re-Quip Foundation, making you part of the anticipated success in the long run.
- You make a relevant contribution to advancing sustainability to make the offshore energy industry a better place.

HOW TO CONTRIBUTE

This fundraising campaign offers three levels of participation for **Founding Supporters**, suited for Industry partners from any relevant background, and of any size. Upon your registration, you will be contacted to discuss further arrangements and confirm your support.
